WORK EXPERIENCE

AXIS BANK July 2024 – Present

PRODUCT MANAGER, Digital Banking & Transformation

Mumbai, Maharashtra

- Improved partner journeys and integrations to **increase annual transactions** in S0001 by **141%**, **remittance volume** by **USD 40M**, and **FX income** by **123%** between FY25 & FY26.
- Turned funnel insights into native API journeys for INDMoney and Vested, **achieving a 51% completion rate** against 27% redirection benchmark and **driving 71% of FY26 partnership transactions**.
- Co-led** onboarding of ViewTrade, Appreciate Wealth and GlomoPay across requirements, API coordination, beneficiary configuration and settlement mapping, **strengthening fintech network** from 3 to 6 partners and **supporting** a portfolio of **10,000+ US-equity investors**.
- Owned funnel & managed reporting for a digital outward remittance channel **processing 332K transactions (~USD 557M)** annually.
- Identified NSDL and PAN name mismatch issues and **implemented upfront PAN-name capture**, **reducing** operations-stage rejections by **12%**.
- Prioritized fixes based on root-cause analyses, **reducing recurring customer queries by 30% in 3 SOPs**.
- Developed** requirements for **25 API endpoints** (22 live and 3 in development) and drafted downstream specifications into BRDs, user stories and acceptance criteria across correspondent banking, FX, document verification and remittance systems.
- Orchestrated backlog priorities, two-week sprint line-ups, grooming, dependency management and release readiness to align **36 production releases with 89% on-time delivery** across a 16-member cross-functional team spanning frontend, backend, QA, and UAT.

MANAGED PRODUCTS

- Retail outward remittance platform:**
 - Launched new retail outward remittance platform, increasing journey completion rate by 17% through end-to-end product ownership.
 - Architected and implemented OAuth-based SSO, reducing login friction and enhancing user security for digital banking services.
- Inward Remittance:**
 - Drove the zero-to-one build of a new inward remittance journey to replace an Internet Banking-only legacy experience.
 - Designed customer flows, wireframes, downstream processing and **3 new API integrations**.
- FX Retail:**
 - Developed 3 modules** as per RBI guidelines for integration with Axis digital platforms.
- Cross-border payments:**
 - Led the development of accelerated SWIFT payments** for cross-border payments to reduce the processing time to within 2 hours.
