WORK EXPERIENCE

AXIS BANK

July 2024 – Present

PRODUCT MANAGER, Digital Banking & Transformation

Mumbai, Maharashtra

- Improved partner journeys and integrations to **increase annual transactions** in S0001 by **141%**, **remittance volume** by **USD 40M**, and **FX income** by **123%** between FY25 & FY26
- Turned funnel insights into native API journeys for INDmoney and Vested, **achieving a 51% completion rate** against 27% redirection benchmark and **driving 71% of FY26 partnership transactions**
- Co-led** onboarding of ViewTrade, Appreciate Wealth and GlomoPay across requirements, API coordination, beneficiary configuration and settlement mapping
- Strengthened fintech network** from 3 to 6 partners and **supporting** a portfolio of **10,000+ US-equity investors**
- Managed reporting for a digital outward remittance channel **processing 332K transactions (~USD 557M)** annually
- Identified NSDL and PAN name mismatch issues and **implemented upfront PAN-name capture**, **reducing** operations-stage **rejections by 12%**
- Prioritized fixes based on root-cause analyses, **reducing recurring customer queries by 30% in 3 SOPs**
- Developed** requirements for **25 API endpoints** (22 live and 3 in development) and drafted downstream specifications into BRDs, user stories and acceptance criteria across correspondent banking, FX, document verification and remittance systems
- Orchestrated backlog priorities, two-week sprint line-ups, grooming, dependency management and release readiness to align **36 production releases with 89% on-time delivery** across a 16-member cross-functional team spanning frontend, backend, QA, and UAT

MANAGED PRODUCTS

- RETAIL OUTWARD REMITTANCE PLATFORM:**
 - Launched new platform, **increasing** journey **completion rate by 17%** through end-to-end product ownership
 - Architected and implemented OAuth-based SSO, reducing login friction enhancing user security for digital banking
- INWARD REMITTANCE:**
 - Drove the zero-to-one build of a new inward remittance journey to replace an Internet Banking-only legacy experience
 - Designed customer flows, wireframes, downstream processing and **3 new API integrations**
- FX RETAIL: Developed 3 modules** as per RBI guidelines for integration with Axis digital platforms
- CROSS-BORDER PAYMENTS: Led the development of accelerated SWIFT payments** for cross-border payments to reduce the processing time to within 2 hours
